Dear Mr President,  
Dear Ms Executive Director,

On behalf of all members of the Polish National Veterinary Council and myself I want thank you for your congratulatory letter of January 19. I am grateful for all kind words that were addressed to us in your note.

Last year, the Polish National Veterinary Chamber celebrated its 30th anniversary. Our organization has been a full member of FVE since 1999. We are conscious of all the new challenges that we have to face constantly in our veterinary practice. We try to deal with them for the good of people and animals. Nowadays the interconnection between human wellbeing, animal wellbeing and environmental wellbeing is more pronounced than ever. The One Health approach is helping us to address any emerging concerns.

Our cooperation with FVE is of an immense value to the Polish National Veterinary Council and I do hope that together we can make true progress and reach our common goal in making European society healthier.

Moreover, I would like to inform you that the National Veterinary Council, apart from the 16 elected members mentioned in your letter, also includes 16 current Presidents of the regional veterinary chambers. Currently, these are the following veterinarians: Brzeski Tomasz, Dul Ryszard, Domarecki Tadeusz, Górski Tomasz, Jackowski Dariusz, Klimowski Andrzej, Kubica Marek, Konwant Sebastian, Łukaszewicz Jacek, Meskel Sara, Pankiewicz Lech, Przewoźna Joanna, Rucki Piotr, Suchecka Dorota and Wysocki Marek.

Kind regards,

Marek Mastalerek DVM

President of the Polish National  
Veterinary Council
